Circe Invest Nominated for Prestigious Sustainable Investment Awards 2024 by Investment Week

We are thrilled and deeply honored to announce that Circe Invest, in its very first year, has been nominated for the prestigious Sustainable Investment Awards 2024 by Investment Week.

These awards, now in their 18th year, celebrate the key players in the evolution of sustainable investing. To be considered for the award, entrants had to provide examples of innovation, original thinking, inspiring leadership or wider industry impact in this area.

We are incredibly grateful for this recognition and extend our heartfelt thanks to the panel of sustainable investment experts who meticulously reviewed and selected the nominees.

Here is the link explaining the award process and showing all the nominees in the different categories of sustainable investment;
